A photograph of a Zen garden sand pattern. A smooth, rounded, light-brown stone sits in the center of a circular, concentric sand pattern. This circle is part of a larger, wavy sand pattern that flows from the top left towards the bottom left. The sand is a light beige color, and the overall scene is minimalist and serene.

INTERNET USAGE AMONG OLDER GENERATIONS

The Internet isn't just for tweens and young socialites. In fact, a large population of Internet users are 50 and older, utilizing the Web for social media, shopping and even education. Let's take a look at why the stereotype of the not-so-tech-savvy Baby Boomer is more than faulty.

App of the Week

Catholic Relief Services Rice Bowl app (free on Android and Apple) takes the experience of Rice Bowl almsgiving into the rest of your life. This helps you stick with the three pillars of Lent - almsgiving, fasting and prayer - right from your device. There are reflections for each day of Lent, just like on the calendar you get with your Rice Bowl, but you also get to watch videos of the people whose stories you learn during Lent. Each Friday, there are meatless recipes, along with a family whose story is featured (you can eat the same thing they would eat).
